

Customer

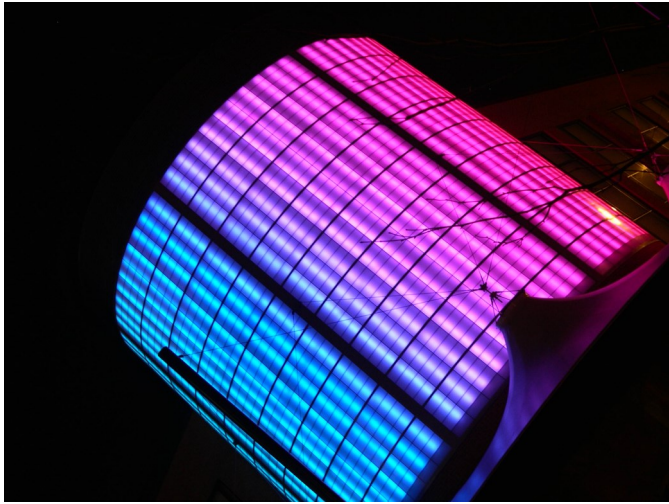

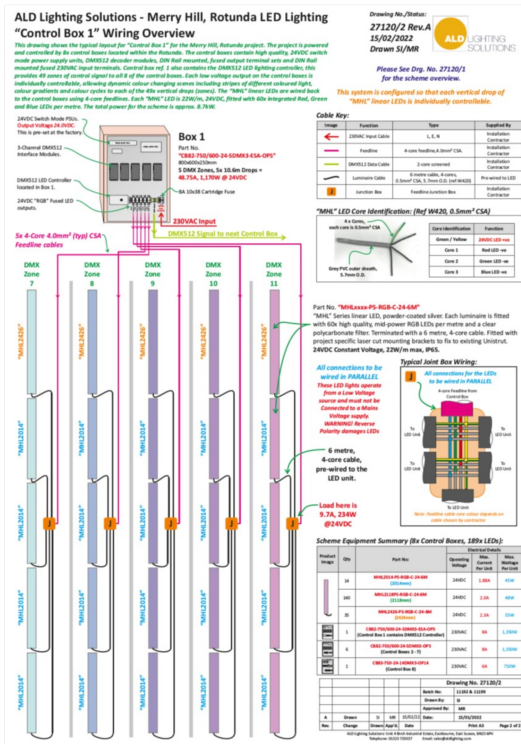

Savills

Project

Merry Hill Rotunda - Dudley

Duration

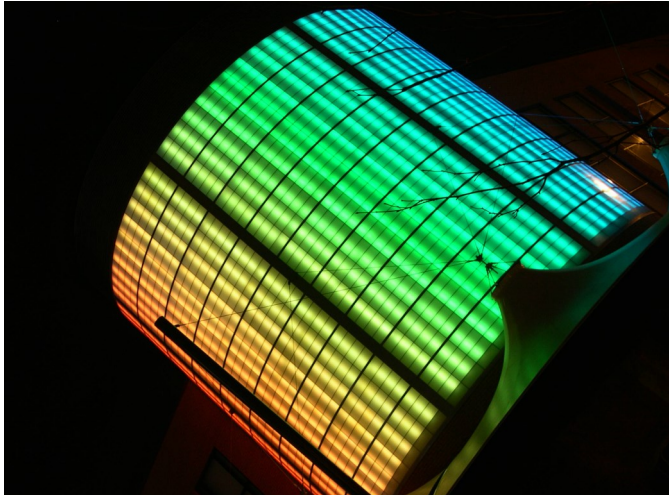

8 Weeks

Eight new control boxes were manufactured with new power supplies and DMX RGB controllers with graphic interface cards. Eight new colour sequences were programmed at the factory to save on site commissioning costs.

Products:

Custom MHL linear extrusion 24v RGB

ALD were approached by Savills to upgrade an old RGB LED system supplied and installed back in 2005. We looked at how we could utilise the existing wiring and mounting bracketry and provide a solution to make manufacture a custom product using our MHL linear extrusion combining the latest available 24v RGB LED's with optics.
