PRODUCT DESCRIPTION

Xpress-LR is a wireless, long-range, Casambi-enabled, user interface that brings huge flexibility to interior design as furniture can be replaced and walls can be rebuilt without having to take the wiring of switches or switch placement into account. The switch can be kept wherever the user needs it and it gives direct access to all the important Casambi lighting control functionalities.

CASAMBI MESH-NETWORK COMPATIBILITY

There are different radio modes that can be selected when creating a network in the Casambi App: 'Balanced', 'Better Performance' and now 'Long Range' options. The Xpress-LR enables long-range capabilities only when the long-range radio mode has been selected and all the other devices within the network are long-range capable. It will revert to the shorter, standard range when deployed in networks set to 'Balanced' or 'Better Performance' modes.
BASIC FUNCTIONS

The preset buttons of Xpress-LR can be configured via the Casambi app. A light indicates the selected preset.

Dim up, Dim down:
• Smooth dimming of last chosen preset

Multipurpose buttons:
• Change of color temperature in steps of 25 Kelvin
• Change of the indirect/direct ratio

Preset buttons:
• Individual luminaire control
• Group control
• Control of all luminaires
• Recall scenes
• Recall animations

MOUNTING

The Xpress-LR switch includes a wall mounting bracket. The Xpress-LR magnetically attaches to the mounting bracket.

SMART FUNCTIONS
