

## Customer

IDWE Ltd

## Project

Yarls Wood Detention Ctr Sports Hall

## Duration

4 Weeks

Yarls Wood detention centre sports hall required lighting upgrade IDWE asked ALD to propose a new scheme using LED we proposed our SP60 sports lighter which was ideal for the application as these were to be mounted on lighting trunking

Within this scheme we used a total of 15 x 114w luminaires each luminaire having 60° optic and wire protection grill to prevent damage from Footballs & Basket Balls

We were able to make over 60% energy save compared to the original installation which was 60 x T8 luminaires.
